| Summary | Motivated IIT undergraduate seeking to develop experience in the IT industry working as a software engineering intern. Eager and enthusiastic about learning new technologies and staying updated with industry trends. | | | | |
| Projects | <div>Hirely AI (Full Stack)</div> <div>Technologies: React+Tailwind Node+Express MongoDB Python GPT-3.5 Turbo</div> <div>A custom solution website that has a LLM integration. A person may click on a job and answer some questions related to the job then the answers are taken to the LLM model to evaluate the persons eligibility to the specific job role. The rating given to the person and their answers can be viewed by the recruiters of the company.</div> | | | | 2024 |
| | <div>Vehicle Repairo (Fullstack)</div> <div>Group Project</div> <div>Technologies: React React Native Flask MongoDB Firebase</div> <div>Lead the team to create a mobile application and a web application where drivers are able to access the nearest mechanics, book appointments with mechanics, receive guidance that solves minor issues in vehicles, view ratings and reviews and finally able to receive vehicle service reminders by a machine learning model.</div> | | | | 2024 |
| | <div>Instagram Clone</div> <div>Technologies: React + chakra ui, Firebase</div> <div>An Instagram clone application that does all functionalities of Instagram except messaging and video reels.</div> | | | | 2023 |
| | <div>Shopping Cart</div> <div>Technologie: Java MySql Java Swing</div> <div>A console was made for the shop manager to manage products and a shopping GUI was created for the customers to buy products. A MySql database was used to manage customer logins and keep track of their sales. A project that clearly showcases all OOP concepts.</div> | | | | 2023 |
| | <div>Portfolio</div> <div>Technologies: Next js</div> <div>A portfolio was created to showcase all of my projects.</div> | | | | 2024 |
| | | | | | |
| Education | <div>Informatics Institute of Technology</div> <div>Computer Science</div> <div>Prominent Modules: Obeject Oriented Programming in java received a total mark of 88, Databases and Database Management received a mark of 84, Client Serve Architecture marks pending, Machine Learning marks pending</div> | | | | 2023 - Present BSc (Hons) |
| | <div>Informatics Institute of Technology</div> <div>Grade: Distinction</div> | | | | 2021 - 2023 Foundation Certificate of Computing |
| | <div>Vidura College</div> <div>Ordinary Level (o/l s) 7As 2Bs</div> | | | | 2021 |
| Skills | React js | Next js | Node+Express | Tailwind | Java |
| | Python | MongoDB | HTML/CSS/JS | React Native | GitHub |
| Certifications | <div>Java Certification</div> <div>Informatic Institute of Technology</div> <div>A in-depth course on java which covered the concepts of oop, threads, spring boot, java fx, databases</div> | | | | 2023 |
| Participation | <div>Participation in py-Hack</div> | | | | |
| | <div>Participation in code sprint</div> | | | | |
| | <div>Member of Rotract Club of IIT</div> | | | | |
